

Samuel Lasco
1513 Ohio
Chicago, IL. 60622

Dear Mr. Superintendent,

Please consider my background and qualifications for a teaching position at the elementary level. I saw your listing on the Internet (<http://www.teacherwanted/>) indicating that you will have openings this fall. I have a type-3 certification in elementary education with endorsements in; Earth Sciences, General Science, Middle School, and Language Arts. I still continue to maintain my educational websites. (www.huntersupreme.com) (<http://www.slasco.org>)

I am very interested in the positions at your school for several reasons. First of all, my emphasis is in hands on education. It also interests me that your school is hosting Continuing Education workshops this summer. I have spent many hours working with a teacher who is trained in Continuing Education learning. I like the results I have seen, and have enjoyed experimenting with some of the structures myself. My last teaching position was at Lafayette Specialty School. I demonstrated strong classroom management as well as a well rounded learning curriculum. I eventually became school cadre where I demonstrated different teaching and classroom management strategies.

I am a teacher because I enjoy hard work and helping others find success. I want my students to experience meaningful, interesting learning that applies to their lives. I believe this can be accomplished through the use of hands-on/minds-on activities, cooperative learning, an integrated curriculum, and, when possible, technology and the internet.

An up to date resume is attached for the review of your selection committee. I trust that it contains adequate information for committee review process. If there are additional questions please feel free to contract me by phone or email.

In Anticipation,
Samuel Lasco
